## Smart Safe Electricals

— Turnkey E & I Solutions For Process Industries

[www.smartsafeelectricals.com](http://www.smartsafeelectricals.com)

# ABOUT US

**Smart Safe Electricals** was founded in year 2015 which is situated in Kota (Rajasthan). SSE started work in manufacturing the control Automation and Electrical panels since 2008. SSE's strategy is to innovate control panel designs to constantly improve electrical control panels and deliver a steam of new industrial electrical automation products that give greater productively and customer satisfaction.

Through our efforts in achieving automation engineering excellence, we have established a well equipped panels manufacturing unit, powder coated control Panels along with proper power control panels testing setup. We have been helping to our customer, in designing of power distribution & control panels for their industrial electricity load requirements.

## VISION

- ▶ Be a professionally managed organization, customer driven & committed to Total Quality Services to be a premier company in providing electrical solutions to its customers.
- ▶ Be committed to a world-class customer experience.
- ▶ Benchmark with global quality standards.
- ▶ Empower an active R&D that leads innovation in the industry.
- ▶ Enroll world class Manufacturing Practices & Ethical Value System.
- ▶ Sustain a high performance team and blend it with strategic partnerships.
- ▶ Add economic value to our client's business.
- ▶ Create wealth for our stakeholders.
- ▶ Be a market Leader with significant Global Presence.

## MISSION

Make the world with innovation in Global Automation Technology.

## VALUE

Our values represent our identity as an experienced and professional knowledge behind us: a high sense of customer service, teamwork, innovation, precision, belief in a job well done, professionalism and above intense enthusiasm.

# INDUSTRIES

Cement & Putty

Marine

Food and Beverage

Paper & Printing

Metals

Textiles

Energy

Mining

Oil & Gas

Material Handling

Chemical & Pharmaceuticals

Water & Waste Water Treatment

# PRODUCTS & SOLUTIONS

## TURNKEY PROJECTS (ELECTRICAL, AUTOMATION & INSTRUMENTATION)

Smart safe supplies Turnkey solutions for Process & Factory automation. Our solutions are based upon knowledge and experience of our experts. Our turnkey solution spans all phases starting from concept design to manufacturing, programming and testing, to customer training and commissioning.

## PANEL MANUFACTURING

**DCS/PLC PANEL:** PLC Panel complete with CPU, I/O modules, Power supply unit with/without HMI provision can be delivered specific to the hardware supplier.

**AC/DC DRIVE PANELS:** In order to cater the demand of the market, we are engaged in offering a wide range of panels and now become one of the reliable VFD panel manufacturers and suppliers in India. We made this by using high-quality material and ultra-modern technology, which ensure its long working life.

We follow all necessary industry guidelines to meet the ever-changing demands of the market in an effective manner. VFD Control Panels are highly appreciated by our clients. Being well-known VFD Panels manufacturers and suppliers, we offer it in different technical or non-technical specifications.

**MCC:** MCC panels are consisting of one or more vertical metal cabinet sections with common power bus, motor control units with provision of individual connections and metering instruments.

Design & size of the compartment, cable alley, busbar chamber can be customized to meet the design requirement of the customer.

**LDBS:** Our LDB are designed to provide efficient and safe power distribution to lightning fixtures and equipment, ensuring that your building remains illuminated and functional all items.

**OTHERS:** Any other design as per customer requirement can as well be provided.

**ENGINEERING & SOFTWARE SERVICES:** Engineering And Software Services refers to the use of software to automate repetitive engineering processes. With user-defined engineering rules and procedures, engineering automation tools are capable of creating data, schematics, documentation, and more.

## PRODUCT SALES

We are authorized system house of siemens and System integrator of Rittal also.

## UPGRADATION & RETROFITTING

Looking for cost-effective ways to upgrade or expand your systems/plants to meet current and future requirements? With us your job can operate effectively and economically.

**PBDS:** AC & DC Power distribution control panels are offered according to the customer specification. As a standard design, 24V to 220V DC and 1P, 240V AC, 3P, 415/440V AC, 50Hz/60Hz rated control panels are manufactured.

**PCC:** Our high-quality panels are designed to regulate power supply in various industries, ensuring seamless control and protection of electrical loads. Our PCC Panels deliver reliable and efficient performance with top-notch switchgear and busbars. We cater to industries such as Cement, Metal, Mining, chemicals, paper, power, textile and more.

**IMCC:** IMCC panel consists of feeders which are the same as that in MCC panel, but only differs by a device called SIMOCODE. Can be deliver as per requirement.

**JBS:** An electrical junction box is an enclosure housing electrical connections. Junction boxes protect the electrical connections from the weather, as well as protecting people from accidental electric shocks.

**APFC:** We manufacture customized capacities of APFC panels based on the capacities of the machinery and appliances of the industries. Our products are reliable and efficient - they are available in all capacities for LV systems.

## INDUSTRIAL TRAINING

Training facility on various modules related to automation.

# OUR CLIENTS

**AM/NS  
INDIA**

 **JINDAL SAW LTD.**
